

Brivo Onair® is a cloud-based access control and video surveillance platform. It was designed from the ground up to be cyber secure and easy to deploy, update and manage remotely.

Brivo Onair combines access control and video surveillance to put your customers in control of their facilities from anywhere and from any device.

Brivo Onair is ideal for those customers looking to:

- Monitor who comes into your building
- Manage multiple doors and locations
- Restrict access to specific employees, contractors at specific times
- Access doors, garages, or elevators from your mobile device
- Avoid re-keying or issuing new key fobs
- Issue and revoke credentials instantly
- Select from proprietary or open standard solutions
- Select the credential, reader and lock brands that meet your needs
- Maintain and administer access control system
